# Netecs Cabling. Connect with the Best.

Your network is only as good as the cables connecting to your network. Entrust your network uptime with Netecs cabling. All of our cables exceed industry specifications for your peace of mind.

Netecs 10Gigabit custom trunks provide nearly 3 times more bandwidth than multimode fiber and cost lower than single mode. 10Gig cabling provides an easy path toward future upgrades.

## Size doesn't matter, **enhancement** does.

Our high performance cables provide reliability for copper, fiber and trunking solutions.

<p><b>1</b> Netecs cabling offerings include CAT5E, CAT 6, Infiniband, TIA/568-B-2-1, copper cables, fiber cables, aqua fiber and custom trunks.</p>	<p><b>2</b> Our custom fiber trunks offer a high density solution to exceed the criteria established by leading OEMs.</p>	<p><b>3</b> Converting to 10Gigabit increases productivity, decreases costs and offers better performance within your network.</p>	<p><b>SOLUTION!</b> Netecs racks/enclosures and cable management systems compliment your strategically designed infrastructure.</p>
--	---	--	---

Netecs cables and cabling solutions range in speeds up to 100 Gigabit. We implement the lowest DB loss the industry demands because it's the correct application.

Netecs is a provider of networking infrastructure technologies, cabling solutions, data center strategies and asset recovery services. Whether you're interested in bleeding-edge technology for future deployments or just trying to extend the life of your previous IT investments, Netecs has the solution.

At Netecs, we nourish your mission-critical needs of today while helping plan for the future. We design, build, implement and support your voice, video and data center solutions.
