# Increase your IT speed, not IT spend.

Entrust your network with Netecs branded optical transceivers, made by the same contract manufacturer as our primary manufacturers and are TAA (Trade America Act) compliant.

Netecs branded transceivers are individually tested, individually serialized, and individually programmed with data passed through each device prior to shipping for your peace of mind.

## Insert your optic, then forget it.

Our multi-manufacturer optical transceiver offering provides you with better choices.

<p><b>1</b> Netecs transceivers are 100% compatible and are covered by an industry leading advanced replacement lifetime warranty.</p>	<p><b>2</b> High-performance, high-quality transceivers with guaranteed compatibility at an affordable price.</p>	<p><b>3</b> Short range, long range, GBICS, SFP's and XENPAK's supplied with advanced replacement lifetime warranty.</p>	<p><b>SOLUTION!</b> Each programmed and serialized device is easily viewed within the interface in the switch management.</p>
--	---	--	---

**Are poor warranties and high costs of optics slowing your network down?** Let Netecs optical transceivers provide high performance at an affordable price.

Netecs is a provider of networking infrastructure technologies, cabling solutions, data center strategies and asset recovery services. Whether you're interested in cutting-edge technology for future deployments or just trying to extend the life of your previous IT investments, Netecs has the solution.

At Netecs, we nourish your mission-critical needs of today while helping plan for the future. We design, build, implement and support your voice, video and data center solutions.
